CAMP OUT!

My three friends and I went on a camping trip.
We were all surprised to find that the others had asthma too!
From the clues given, try to determine which main trigger each of us had, what favorite food each liked to cook over the campfire and the colour of each or our tents.

Neither of the boys had an animal for their trigger.

Sally, who liked to sleep late in her yellow tent, cooked up her world-famous pancakes.

Even though Bob always took his preventor medicine during tree pollen season, his tent blended in with the trees.

Jackie's tent matched the colour of her eyes.

The girl who sneezed and coughed when around a cat enjoyed eating hot dogs.

The person in the red tent loves marshmallows.

	TRIGGERS					FOOD			TENT COLOUR			
	Cat	Horse	Cigarette Smoke	Tree Pollen	Marshmallows	Hot Dogs	Pancakes	Corn-on-the-cob	Blue	Yellow	Green	Red
JACKIE												
SALLY												
BOB												
TREVOR
