COPD Conference

February 6-7, 2009

VANCOUVER, BC, CANADA

Morris J. Wosk Centre
for Dialogue

Delta Vancouver Suites

Tel: 604-739-3763

Email: info@dwk-inc.com

You are invited

COPD: reactive past, preventive future brings together the world's leading clinicians and researchers to celebrate 30 years of excellence in lung research at the James Hogg iCAPTURE Center and to generate a new "blueprint" for COPD research for the next generation of COPD researchers. There will be over 20 internationally renowned speakers at the meeting, who will discuss topics ranging from *Molecular Pathogenesis* to *Self-Management in COPD*.

Other topics will include: *Surgical Interventions, CT scanning for Phenotypes, Structure-Function, Novel Molecular Targets, Oxidative Stress, The Worldwide Prevalence of COPD and New Risk Factors, New Frontiers in Interventional Bronchoscopy, Genomics and Epigenomics of COPD, COPD and Extra-Lung Manifestations, COPD and Senescence, and the Emerging Biomarker Studies in COPD: The ECLIPSE Study.*

Featured Speakers

Peter Barnes, DM, DSc
Jean Bourbeau, MD
Bartolome Celli, MD
Andrew Churg, MD
Joel Cooper, MD
Manuel Cosio, MD
Harvey Coxson, PhD
Jack Elias, MD
James Hogg, MD, PhD
Malcolm Johnson, MD
Sebastian Johnston, MD
William MacNee, MD
David Mannino, MD
Nestor Müller, MD, PhD
Masaharu Nishimura, MD
Denis O'Donnell, MD

Peter Paré, MD
Dirkje Postma, MD, PhD
Frank Sciurba, MD
Sanjay Sethi, MD
Edwin Silverman, MD, PhD
Don Sin, MD
Avi Spira, MD
Robert Stockley, MD
Rubin M. Tuder, MD
Jorgen Vestbo, DrMedSci
Joanne Wright, MD

Committee Members

Co-Chairs:

Jim Hogg, &
Peter Paré
